Why Sponsor SLxAI Summit 2027?

■ Reach a High-Value Niche Audience

Connect with professionals and organizations invested in sign language technology, accessibility, and responsible AI — not broad, untargeted traffic.

■ Meet Researchers, Founders & Decision Makers

Engage people who shape product roadmaps, research agendas, and partnerships across industry and academia.

■ Align with Ethical, Inclusive Innovation

Associate your brand with a summit that prioritizes Deaf leadership, accessibility, and thoughtful use of AI.

■ Showcase Products to a Focused Community

Demonstrate tools and services to attendees who evaluate and implement sign language and accessibility solutions.

■ Support Communication Access & Responsible AI

Demonstrate commitment to communication equity and standards that benefit Deaf and hard-of-hearing communities worldwide.

■ Visibility Before, During & After the Summit

Benefit from recognition across digital channels, on-site touchpoints, and program materials surrounding the event.

InterContinental Miami — Second Floor Footprint

Programming uses the full second floor — ballroom, exhibit areas, and central atrium — so sessions, exhibits, and sponsor touchpoints sit in one contiguous footprint. Exhibit halls: Biscayne Ballroom and Chopin Ballroom.

Proven Track Record: Boston Summit

The inaugural SLxAI Summit at Boston University was a full-capacity event with sustained interest far beyond the room. That success validates scaling Summit 2027 to 1,000 attendees in Miami.

225 Attendees At 220-seat capacity	104 Orgs & Companies Represented	18 Countries Represented
15 Sponsors Supporting the summit	20 Sessions Workshops & panels	300+ Waitlist Could not be seated

Planning & Execution Highlights

- ✓ Entire program assembled in fewer than three months of planning.
- ✓ Sold out by week seven — more than a month before the event.
- ✓ Programming delivered in ASL and International Sign Language, with English via spoken audio and live CART (Communication Access Realtime Translation).

Miami 2027: Scaling Up

Summit 2027 brings more sessions, more seats, and broader international representation, plus exhibit spaces that were not available in Boston.

50+ Workshop & Panel Sessions	1,000 Target Attendees From 25+ countries	250+ Orgs & Companies Target representation	3 Concurrent Workshop Tracks
